

Costing Rules

Each visit to any of:

1) Netflix, Harry Potter, Lickess, Youtube, Pam
costs $\frac{1}{8}$ of an hour 1 unit.

Any visit to the news or Twitter (except ~~Twitter~~ on the news!)
between 9 and 6 costs 1 unit.

For any unit mistake needs to say out loud
I, ~~stanned~~. 24 kids for a month
just I am about to stare. replace the figure

mid.

$$Y_n = [y_1, \dots, y_n]$$

change X_n to X_n !

$$[E, \varepsilon_1, \dots, \varepsilon_n]$$
